PURPOSE

A permit may be extended by the decision-making authority if the findings required for the original permit for approval remain valid and application is made prior to expiration.

Minor amendments to a discretionary permit approved by the Planning Commission or City Council, including conditions of approval, may be approved by the Assistant City Manager for Development Services upon a written finding that:

1. No substantially new uses will be added, density will not be substantially increased, and the structure will not be substantially enlarged;
2. The changes are consistent with the intent and spirit of the original approval;
3. There are no resulting violations of this code or state law; and
4. There will be no new significant adverse environmental effects.

Relatively insignificant physical changes to a site plan, such as the use of different landscape materials, slight alterations in building elevations, rearrangement of the parking, and insignificant relocation of structures may be approved by the Community Development Director.
