**BIORETENTION DESIGN NOTES**

1. For use with stormwater facilities with sloped sides.

2. Best suited for facilities with < of <= than 2% longitudinal slope.

3. Provide elevations and stationing and/or dimensioning for check dams.

4. Space check dams to maximize ponding across entire cell.

5. Ensure that check dam elevations do not cause stormwater to overflow to sidewalk.

**CONSTRUCTION NOTES**

1. Do not work during rain or under wet conditions.

2. Keep all heavy machinery outside bioretention area limits.
