

Neighborhood Announcement Third Street Water Pipeline Replacement

Beginning February 2018, you will notice an increased presence within your neighborhood which is part of the City's effort to replace a 100+ year-old pipeline beneath Third Street between California Boulevard and Seminary Street.

I have directed the City's contractor to start at California Boulevard and progress east towards Seminary Street.

In the coming days, you may notice the placement of "No Parking" signs along the south side of Third Street.

What to Expect During Construction

The pipeline construction will require daily closures of the eastbound lane of Third Street. The westbound lane will remain open during construction. Third Street will be reopened at the end of each working day.

After the installation of the pipeline, the contractor will transfer all water services, make final connections and pave the affected lanes.

Schedule

Work hours will be 7:30 a.m. to 5 p.m., Monday through Friday.

Water Service Interruption

You will receive additional notice(s) for planned water service turn-offs as they arise. After the service interruption, you may experience air in the pipe. Please report any water quality issues immediately.
