

COMMUNITY DEVELOPMENT DEPARTMENT

Background:

The City of Napa strongly supports the creation of accessory dwelling units (ADUs). An ADU is a great way to increase living space, provide housing for relatives, and/or create a steady source of rental income. ADUs provide an additional variety of housing and can expand the community's supply of affordable housing.

The State Housing and Community Development Department requires the City to report the number of affordable housing units annually. We appreciate your cooperation in completing this survey to help the City identify affordable housing units. The survey is only used for statistical purposes. Your participation is very important, and we appreciate the information.
