

Park Avenue and Jefferson Street Water Main Replacement Project

Contact: Victor Gonzalez, 707-257-9521, vgonzalez@cityofnapa.org

May 19, 2020

In 2020, the City of Napa Water Division is replacing 640 feet of water main on Jefferson St from Menlo Ave to Central Ave and 1,970 feet of water main on Park Ave from California Blvd to Jefferson St. This project, which is part of the City's ongoing Capital Improvement Program, will replace small old pipelines with larger pipelines. Replacing old pipes that are more likely to break and cause leaks with larger pipes helps improve flow and increase the reliability of the system.

Construction is due to start May 20, beginning with surveying, and identification and marking of existing underground utilities. Affected properties will be notified 2 business-days before any parking restrictions or water outages.
