[Fire Station Locations and Phone Numbers](#)

The Napa City Fire Department, established in 1906, proudly serves the 75,000 residents of the City of Napa, California. Our Department is divided into [Adminstration](#), [Operations](#), and [Prevention](#) Divisions.

The Fire Department serves the community from four fire stations covering 18 square miles within the City limits of Napa in the heart of the Napa Valley wine country.

Each station provides an Advanced Life Support (Paramedic) Engine company staffed with a minimum of three personnel. In addition, Fire Station One provides a Ladder Truck Company capable of specialized operations and heavy rescue.

The department staffing consists of 56 suppression, six fire prevention and four administration personnel. Our present annual call volume is about 6,000 responses per year of which 85% are medical in nature. Approximately 5% are

fire related and another 5% hazardous material related with the remaining 5% in various "other categories. The department participates in a multi-agency Hazardous Materials Response Team and maintains a Swift Water Rescue Team with two inflatable rescue boats.

Our Fire Department also works closely with [CAL FIRE](#), (the California Department of Forestry and Fire Protection or CDF)/ [Napa County Fire Department](#) and maintains a mutual aid agreement with that agency as well as with the cities of American Canyon and Vallejo. We are also a part of the Napa-Solano California Office of Emergency Services (OES) strike team and house OES Engine 252 which responds out of the county to large incidents within our state several times a year.

"Welcome to the City of Napa Fire Department web page. The men and women of our Department take tremendous pride in providing quality service to the citizens of Napa. We hope that you find our web site interesting and informative. I think you will find that the traditional title of Fire Department doesn't begin to describe the scope of services we provide to the community."

-Tim M. Borman, Fire Chief
