

## **2<sup>nd</sup> NOTICE TO WATER CUSTOMERS**

### **PLANNED INTERRUPTION OF SERVICE Overnight**

**Start: Thursday September 17, 9:00 pm**

**Ends: Friday September 18, 5:00 am**

---

This notice is to inform you of a **planned interruption of your water service** beginning: **Thursday September 17 at 9:00 pm** until **Friday morning at 5:00 am, September 18.**

Hours of Interruption: **9:00 pm – 5:00 am**

This interruption is required for the upcoming **reconstruction of the pump station** on Hillcrest Ave, which was burned down in the 2017 fire. This water service interruption is a necessary step to prepare the connection for the new pump station.

NOTE: CalFire has been notified of this event so that **adequate fire protection will be available** at all times. This Interruption will be cancelled should the area come under a CalFire Red Flag Watch or Warning.

The following are a few tips to follow during the planned shutdown:

- Have extra drinking water on hand
- Do laundry before or after shutdown
- Fill a pitcher, pot or other water type container prior to shut down so water will be available for handwashing, or use an alcohol-based hand sanitizer as an alternative. Please refer to the Center for Disease Control and Prevention website for recommendations on proper hand-hygiene. [www.cdc.gov/handhygiene](http://www.cdc.gov/handhygiene)
- Fill bathtub with water before shutdown and use a water type container (bucket, water bottle, etc.) to fill the toilet tank, which should allow for flushing of the toilet
- Do not use hot water during the shutdown

When the system is turned back on you can expect some air in the water lines, so open indoor and outdoor faucets slowly to allow the air to escape. Once the air has escaped, normal water flow should return within a few minutes.

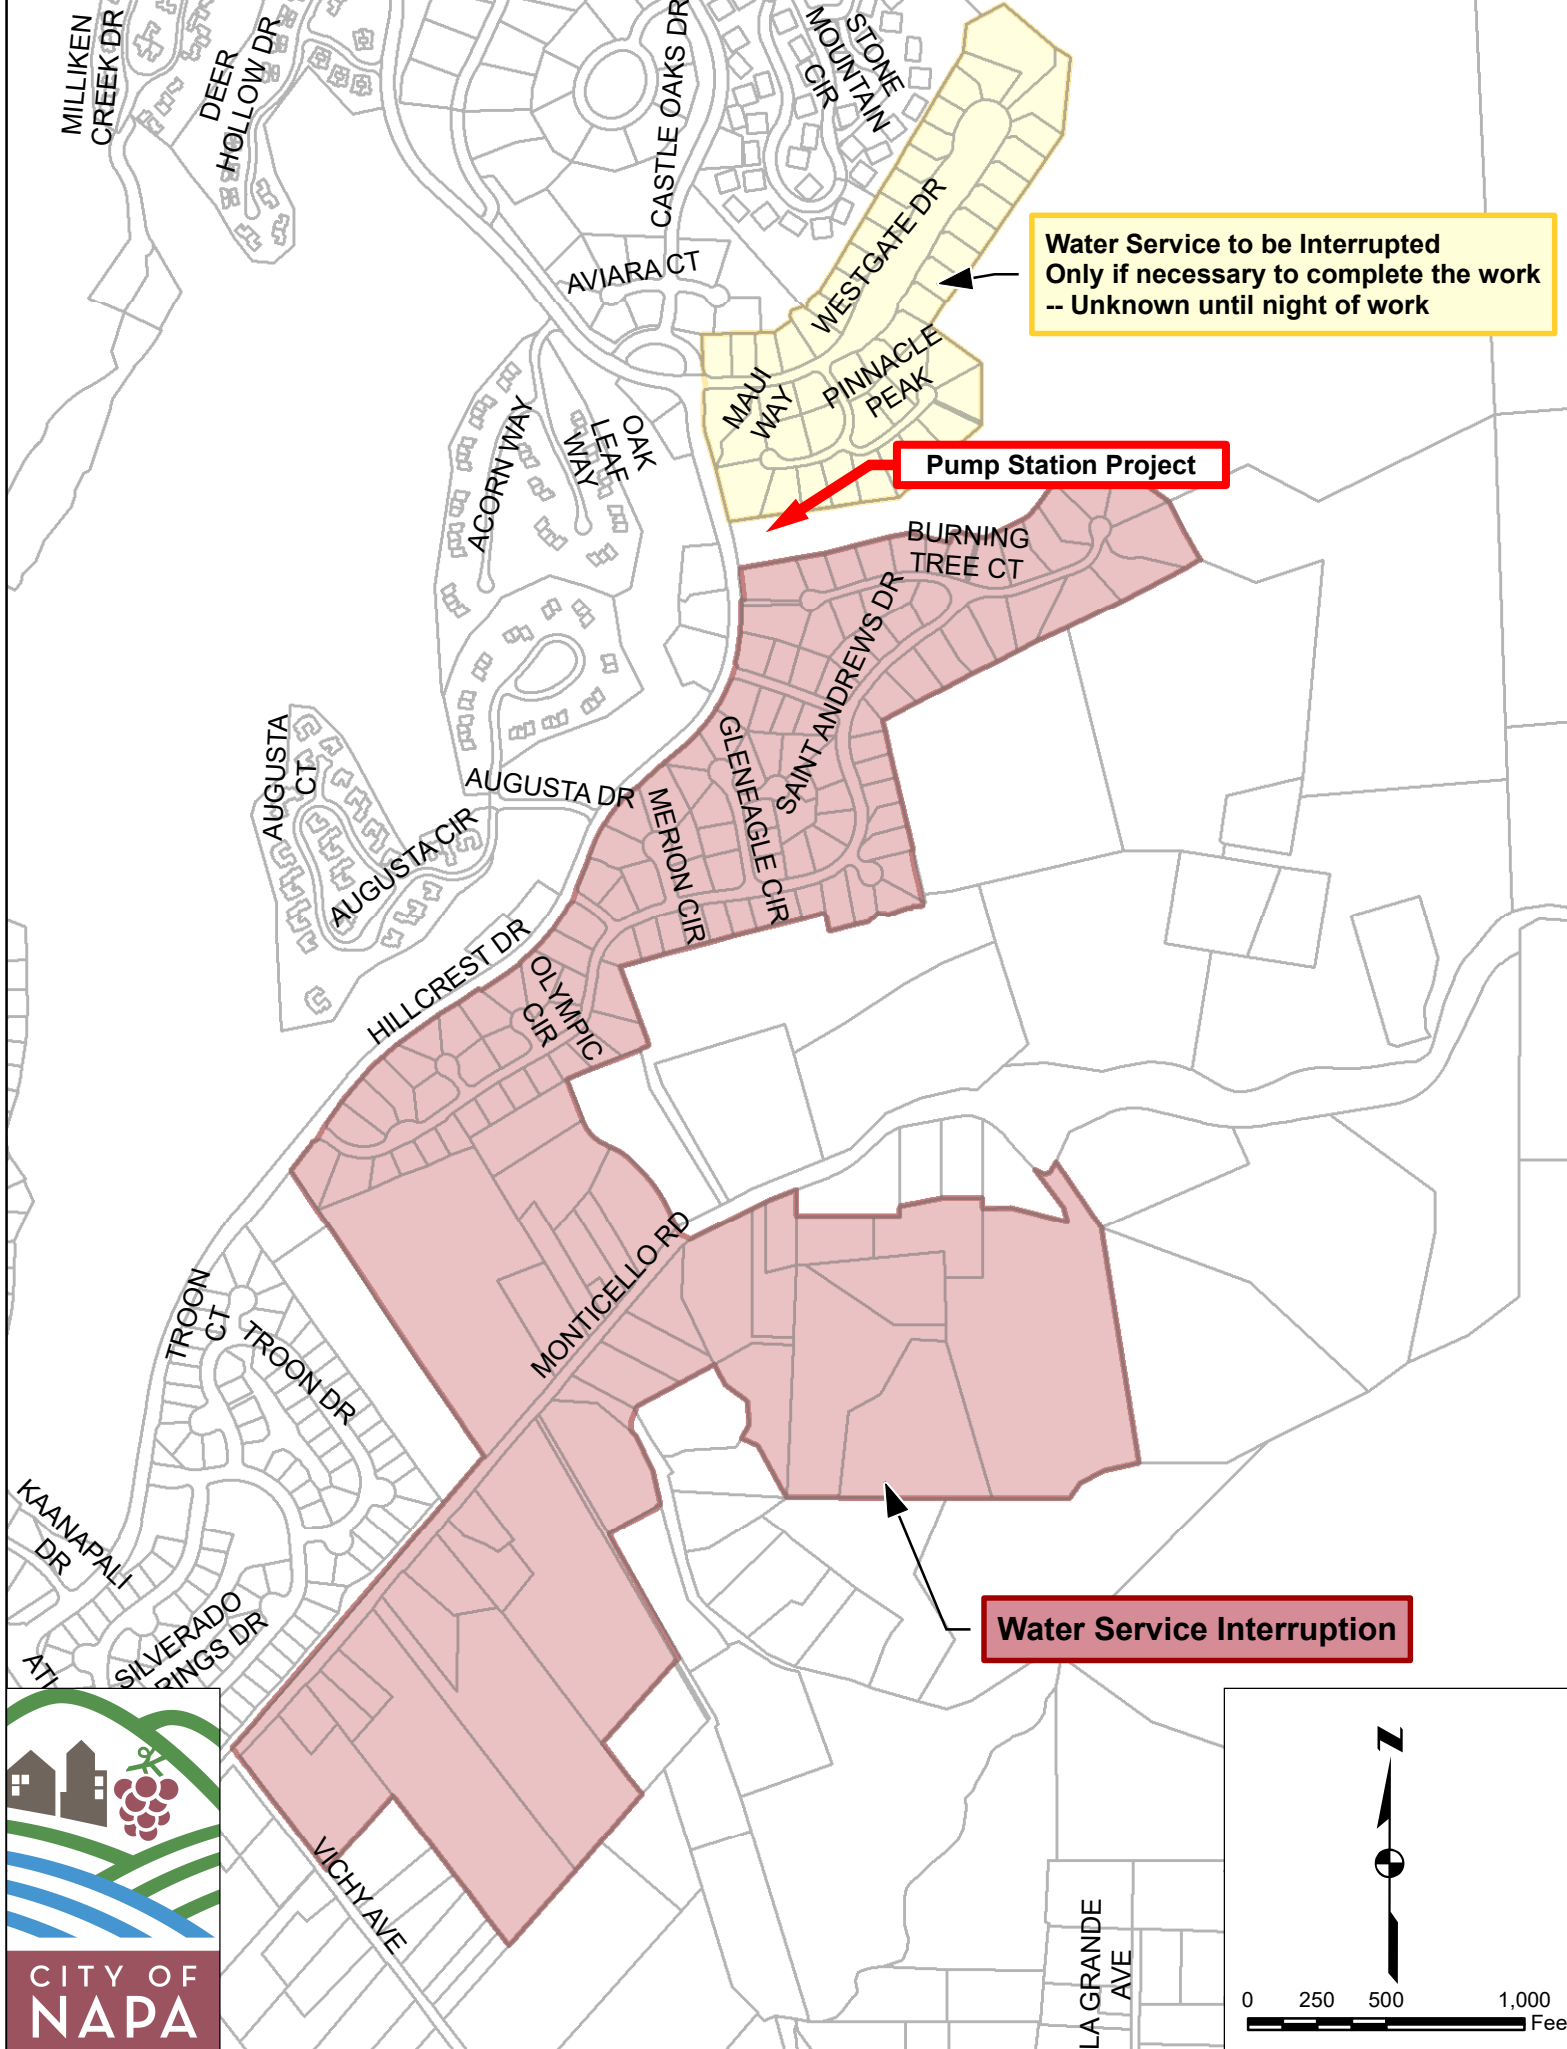

We apologize for the inconvenience and thank you for your cooperation and patience during this interruption.

Please call 707-257-9521 with questions.
